Chemical Safety

- Before working with unfamiliar chemicals, consult Material Safety Data Sheets – available online - see the A-Z index.
- Use a fume hood & wear proper gloves, safety glasses, lab coat when handling chemicals.
- Label containers with name & primary hazard of chemical.
- Store in appropriate locations with compatible materials. Use drip trays for liquids.
- Consult the Chemical Hygiene & Safety Plan for additional information – available online - see the A-Z index.

For questions contact Larry McLouth, EH&S Division (x5286).
